Financial Assistance for Recreational Development (50402)

Service Area Background Information

Service Area Description

DCR administers several outdoor recreational grant programs that provide funding for acquisition and /or development of land for the protection and enhancement of cultural, natural, and outdoor recreation resources. Many of these grants are awarded to local governments and 501 (c) (3) organizations.

Service Area Alignment to Mission

Through the provision of grant funding, we assist agencies, localities, and organizations in preserving, protecting, and enhancing Virginia's cultural, natural, & outdoor recreational resources for current and future generations.

Service Area Statutory Authority

- The director has the responsibility to designate a public recreational area as such and recommend to the Commonwealth Transportation Board that an access road or bikeway be provided to the area. Code of Virginia, Title 33.1, Chapter 1, Article 15.
- Virginia Recreational Trails Fund; Symms National Recreational Trails Act of 1991 (P.L. 102-240) replaced by the Recreational Trails Program (RTP) in the Transportation Act for the 21st. Century (TEA-21) United States Code (23 U.S.M. 206),), reauthorized in the Safe, Accountable, Transportation Efficiency Act (SAFETEA) and the newly authorized Safe, Accountable, Transportation Efficiency Act – Legacy for Users (SAFETEA-LU) in 2005.
- The Board of Conservation and Recreation provides recommendations to the director on grants and loans pertaining to outdoor recreation, on the designation of recreational sites eligible for recreational access road funds, on master plans and substantial acquisition or improvement amendments to master plans, and on designations for scenic rivers, scenic highways, and Virginia Byways. The Board is authorized to conduct fund-raising activities as deemed appropriate and will deposit such revenue into the State Parks Projects Fund. Code of Virginia, Title 10.1, Chapter 1, Article 2.
- The Department is authorized to establish and maintain a comprehensive plan for the development of public outdoor recreational facilities; to establish standards for such facilities; to disburse funds to local, regional, and other state agencies for acquiring and developing such facilities; and to make regulations to carry out the statute. It may develop recreational programs and assist state institutions, agencies, and political subdivisions in developing such programs. Code of Virginia, Title 10.1, Chapter 2, Article 2.

- Land and Water Conservation Fund Act of 1965; P.L. 88-578

Service Area Customer Base

Customer(s)	Served	Potential

Service Area Products and Services

- Financial Assistance
- Technical Assistance
- Public Education
- Public Information

Factors Impacting Service Area Products and Services

- inadequate state funding levels
- declining federal funding levels
- increasing demand for agency services/products
- increased cost of construction materials, services, and lands

Anticipated Changes To Service Area Products and Services

DCR is currently able to fund approximately 30 - 40% of the grant applications received. With an increasing number of grant applications being received, there needs to be a stable and increased funding source provided.

Service Area Objectives, Measures, and Strategies

Objective 50402.01

Utilize federal and state grant programs to enhance the quality and availability of outdoor recreation opportunities statewide.

DCR administers several outdoor recreation grant programs principally the federal Land and Water Conservation Fund and the federal Recreational Trails grants. Many of these grants are awarded to local governments or 501(c)(3) organizations. In order to meet this objective, DCR will make certain that open space and recreational grant funds are efficiently awarded to qualified applicants and that the grant programs are administered in compliance with state and federal requirements. The Department will also ensure that all potential customers (grant recipients) receive grant announcements in a timely fashion and understand the application requirements.

This Objective Supports the Following Agency Goals:

- Meet growing demands on Virginia's award-winning State Parks, while maintaining Virginia's traditional conservation orientation.
- Enhance opportunities to participate in natural resource-based recreation opportunities.
- Advance the protection, conservation, and stewardship of Virginia's significant natural areas, conservation lands, and natural heritage resources.

This Objective Has The Following Measure(s):

- **Measure 50402.01.01**

Number of local projects aided annually through outdoor recreation grants.

Measure Type: Outcome

Measure Frequency: Annually

Measure Baseline: 18 local projects (an average from 2003, 2004, and 2005)

Measure Target: 15 local projects

Measure Source and Calculation:

Based on project grant awards for the Land and Water Conservation Fund and the federal Recreational Trails grants, a total number of local and regional trail, parks, and outdoor recreation projects will be compiled. The target is reduced from the baseline to reflect declining federal funding of the stateside Land and Water Conservation Fund.

Objective 50402.01 Has the Following Strategies:

- Increase types of notifications.
- Revamp website.
- Increase technical assistance to the public.
- Explore ways to identify new grant applicants.
- Streamline grant review process.
- Develop tools to enhance grant administrative process.
- Seek a more consistent funding source.
